

T-4GP SYSTEM

T-4GP COMPLETE EXHAUST SYSTEM (STAINLESS HEADER AND ALUMINUM CAN)

Pro Circuit's T-4GP system is an aluminum and stainless replica of our more-exotic titanium Ti-4GP exhaust. Although the T-4GP is slightly heavier than the Ti-4GP, it still offers a considerable weight savings when compared to the OEM exhaust system. This exhaust system is ideal for a racer on a budget that is not willing to compromise on performance! The only difference between the T-4GP and Ti-4GP is that high-quality stainless steel replaces the Ti-4GP's titanium.

The T-4GP comes complete with our stainless head pipe that works in conjunction with the silencer to produce more power from bottom to top. The use of stainless steel for the header pipe offers increased strength and should give years of trouble-free use.

The silencer canister is easy to repack by removing the inlet cap screws and re-wrapping the silencer core. The T-4GP meets all AMA sound restrictions.

PRO CIRCUIT 4-STROKE ATV MUFFLERS

TI-4 SLIP-ON (TITANIUM)

If you're looking for increased performance, there is no faster (or less expensive) way to get it than a Pro Circuit Slip-On silencer. The Ti-4 slip-on silencers offer huge performance gains when compared to stock OEM exhausts. Silencers will bolt on to the stock or Pro Circuit head pipes in a matter of minutes. In addition to the extra power, the slip-on Ti-4 silencers are substantially lighter. Designed to be easily re-packed to keep performance at its peak.
