NUETECH TUBLISS SYSTEM

NUETECH TUBLISS® CORE

MOTOCROSS ACTION 5 STAR RATING!!!

- TUbliSS® is a full circumference pneumatic rim lock which secures the entire tire bead to the rim, completely eliminating the use of a conventional tube!
- Without the weight and friction of a conventional tube installed, tire temperatures are greatly reduced.
- TUbliSS® completely replaces the conventional tube while delivering several key performance features that's scoring points and lap times with racers and riders everywhere.
- TUbliSS® protects the rim from dings and dents by holding the tire firmly and making the sidewalls stay upright and absorb the full impact, unlike bending and deflection of conventional tubes.
- A weight savings of up to 3 pounds per wheel instantly translates into less rotating weight and increases acceleration.
- Even if you get a tire puncture, the bead stays seated to the rim.
