

ATV BRAKE LINES

STAINLESS BRAIDED BRAKE LINES

Streamline stainless braided lines are made using PTFE Teflon smooth bore liner with an extra tight stainless steel over braid reducing line expansion to almost zero. All brake lines are coated with a UV protected PVC clear coat that protects chrome, paint, fenders, and body work from damage. All the fittings used are triple chrome plated for extreme corrosion protection and a killer look.

ATV BRAKE LINES: Are available in Clear, Blue or Red. Extended brake lines are available to accommodate wider A-Arms or extended swingarms.

MOTORCYCLE BRAKE LINES: Available in Clear.

BLADE ROTORS

Streamline Blade Brake Rotors are much tougher and lighter than stock. Streamline rotors are CAD/CAM designed, laser cut from 420 high carbon stainless steel, heat treated, and diamond surface ground for exceptional flatness, durability, and ultimate braking power while our specially designed cooling slots dissipate heat and keep dirt away from the pads.

ATV BRAKE LINE CLAMPS

Streamline Brake Line Clamps are the best way to secure the routing of your brake lines. Streamline Clamps are made from aircraft grade billet aluminum. All brake line clamp kits include neoprene spacers which allow fitment for 1" & .75" A-Arms. All brake line clamps are available in Silver, Red, Blue, and Black.

PART NUMBER	DESCRIPTION	RETAIL
